

SOLIDARITY WITH JAPAN

The International Union of Architects wishes to express its sincere condolences to the victims of the recent earthquake and tsunami that struck Japan last March 11th. In a message issued on 14 March, Louise Cox conveyed the UIA's solidarity with the people and architects of Japan.

The organisers of Tokyo 2011 are continuing preparations for the congress despite the tragedy. The congress theme, DESIGN 2050, is an invitation to build a better future and an opportunity for the world's architects to join their Japanese colleagues in a global and responsible reflection on architectural design for tomorrow.
