## SITE STRATEGY

A good building is a blend of things, architecture, that it is less better status for the site. It is a building integrated in the landscape. It is a building in the center of the city, in a place that is a landmark and a landmark for the city. It is a building that is a landmark and a landmark for the city.

The site of the new National Library and Business Center is a good site for the city. It is a site that is a landmark and a landmark for the city. It is a site that is a landmark and a landmark for the city.

The building is a blend of things, architecture, that it is less better status for the site. It is a building integrated in the landscape. It is a building in the center of the city, in a place that is a landmark and a landmark for the city.

## FUNCTIONAL ORGANIZATION STRATEGY
