2026 ACEH

INTERNATIONAL CONFERENCE ON NATURAL & HUMAN DISASTERS 2026

17 - 19 April 2026 . Banda Aceh, Indonesia

ABOUT

DR3 Aceh 2026 marks 21 years since the 2004 Indian Ocean Tsunami, positioning Aceh as a living laboratory for resilience and building back better.

Amid recent disasters—from Cyclone Senyar to the humanitarian crisis in Gaza—and escalating geopolitical tensions such as the United States–Iran conflict, the conference highlights that both natural and human-induced disasters, remain urgent and interconnected global realities.

Through conferences, workshops, exhibitions, and disaster site visits, DR3 Aceh 2026 brings together diverse stakeholders to drive critical dialogue, collaboration, and action towards more ethical, inclusive, and resilient futures.
